

Lt STATINTL

Declass Review by NIMA / DoD

Sat., June 13, 1964

John, *W11*

STATINTL

Friday afternoon, before I left, I had a short conversation with [REDACTED] on y the preparation of the strip map from the mission recorder magnetic tape. I would like to discuss this with John further before you take any action on ^{Task} Phase 3 of my proposed work next year.

STATINTL

[REDACTED] expects to be out here in a couple of weeks and I want to want to go into ~~in~~ some detail with him to make sure that we are not working at cross purposes.

I would appreciate your not taking any steps to implement that task until I get ~~as~~ on firm ground. Feel free to prodeed with task 4, Image Qual by Correlation Function, however.

Regards
W11
